Sickness, Disability and Work: Changing Paradigms and International Trends

Speaker: Dr. Veerle Miranda

Around the world new ideas and strategies are emerging about how to include people with mental illness, addictions, and other disabilities in the labour force. Come and join us for a special lecture and discussion with a leading international expert.

Dr. Miranda is an Economist at the Social Policy Division of the Organization for Economic Cooperation and Development (OECD) Directorate for Employment, Labour and Social Affairs in Paris. She is part of the team working on the new review on *Challenges for labour market inclusion of people with mental health problems.*
